

KIT2016: Shenzhen, China

Oct 27, 2016 | 9:00 AM - 12:00 PM

KIT2016: Shenzhen, China (<https://ec.kemet.com/kit-events/shenzhen2016>)

Things to Know:

- Check-in begins at 8:30 AM
- Tea break provided

Agenda

Capacitor Design & Characteristics

For each component type we will discuss the materials used in the design, how differences in construction techniques affect their performance, and important characteristics to consider in your design.

- Ceramic Capacitors
- Polymer Capacitors
- Tantalum Capacitors
- Aluminum Electrolytic Capacitors
- Film Capacitors
- EMI Products

Application Areas

Applying the information learn in the previous sections, discussions focus on how to apply those characteristics to real-world applications.

- K-SIM
- End of Life Calculations

Marco Polo Hotel Shenzhen
28 Fuhua 1st Road
Futian, Shenzhen
Guangdong, China 518048
